Dear Mr. Corben,

I thought that you might like to know what is going on with your old Baby Ace and I am enclosing a circular that will give you the latest dope.

I have spent the last six weeks cleaning rust off the tooling and doing a hundred and one other things trying to get this thing set up. I have your old original fuseledge jig looking like new.

Stan Dzik is giving me some help on the plans. I have some ads going into Sport Aviation beginning in the February issue.

I hope you and your family are fine and had a nice Christmas.

If you are ever up this way, stop by.

Best regards,

Thurman Baird
